Welcome.

Bienvenidos a un proyecto que ya ha cumplido dos años, que se extiende hoy por todo el mundo, con cada vez más perfiles completamente heterogéneos conectados en red, y que sigue buscando su propio límite. Un límite que está en las personas y en Internet, que no tiene límites.

Bienvenido.

Welcome to a two-year-old project, which nowadays works all over the world, with more and more heterogeneous people connected to the net, and which continues looking for its own limits. A limit that is only in people and the Internet, which has no boundaries.

El comienzo.

El portátil Acer de una joven emprendedora argentina fue el comienzo de todo. Hace sólo un par de años ella tuvo esta idea: conectar personas para aprender inglés. Hoy EnglishOnline.TV es ya un claustro online de profesores en contacto diario con cada vez más alumnos en todos los rincones del mundo. Alumnos y profesores españoles, argentinos, colombianos, rusos, belgas, franceses, italianos, chilenos... Con clases completamente personalizadas que tienen lugar, vía Skype, de manera sencilla y rápida. Ella se llama Miriam Domínguez. Hola Miriam. Y gracias.

The Beginnings.

A young Argentinean entrepreneur and her Acer laptop were the beginning of it all. Just a couple of years ago she had this idea: connect people to learn English. Today EnglishOnline.TV is already a whole online teaching staff in daily contact with more and more students all over the world. Spanish, Argentinean, Colombian, Russian, Belgian, French, Italian, Chilean students and teachers having entirely personalised classes, via Skype, in a simple and easy way. Her name is Miriam Dominguez. Hi Miriam! And thanks.

Tienes tiempo aunque creas que no lo tienes. No tienes que moverte, que desplazarte a ningún sitio. Sólo conectarte y empezar, ir mejorando al ritmo que tú marques. El reloj eres tú. EnglishOnline.TV llena de inglés todos los momentos que quieras para que puedas subir peldaños, mejorar, conseguir lo que te has propuesto. Let's start. Despite what you may think, you can make your time. You don't have to commute, nor travel to anywhere. Just connect and start improving at your own pace. You own the time. EnglishOnline.TV fills it with English every moment you want to help you go up the stairs, improve, and achieve your goals. Let's start.

Podemos echar cuentas si quieres.

Las clases a domicilio son más caras. Las academias de inglés son más caras, por lo que cuesta la academia y también por tu desplazamiento, claro.

Skype es gratis. Quedarte en casa es gratis. El acceso a Internet no lo es, desde luego, pero ¿no es ésta una buena manera de rentabilizarlo aún más?

Intentar acompasar tu nivel con el del resto del grupo de estudiantes es más costoso. Ofrecerle un café a tu profesor particular, en casa, cuesta un café. Y por tanto cuesta más que no ofrecer café a nadie más que a ti.

EnglishOnline.TV es más asequible, cuesta menos y vale mucho. Cuanto más te conectas, más mejoras tu inglés y más rápida es tu formación. Tú manejas el timing: te conectas cuando quieres, hablas con tu teacher cuando quieres, mejoras tu inglés cuando quieres.

Echa cuentas.

Let's do the accounts.

Home instruction is more expensive. English institutes are more expensive not only because of the price of the institute but also because of the travelling of course.

Skype is free. Staying at home is also free. Of course the internet access is not free but, isn't this an even better way of capitalizing the internet bill?

Trying to reach the level of other students within the same group is more expensive. Offering a coffee to your private teacher at home will cost you a coffee. Therefore, it is more expensive than offering a coffee to anybody else but to you.

EnglishOnline.TV is more affordable, it is easier and it is worthy. The more you connect the more you improve your English and the faster your training becomes. You manage the timing: you get to it, speak to your teacher and improve your English whenever it suits you.

Do the accounts.

It sounds good, pero no es sólo música para tus oídos. Es real. **And it really works.**

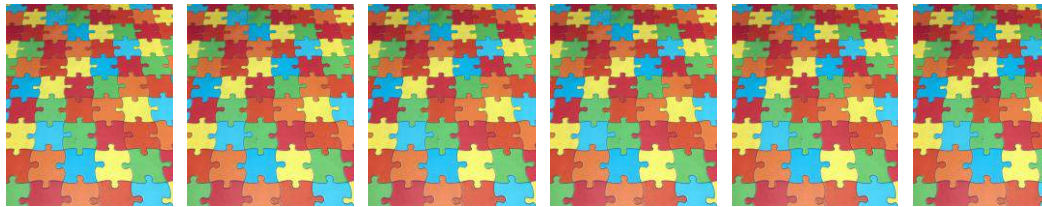

Suena bien, but this is not just music to your ears. This is real. Y funciona.

Sin horarios. ¿Su secreto?
EnglishOnline.TV se adapta al
ritmo frenético que llevamos en
las ciudades.

No fixed schedules.
EnglishOnline.TV adapts to the
frenetic pace that cities have.
That's their secret.

English
online TV

O puede simplemente que EnglishOnline.TV encaje con lo que cada vez más personas quieren. O necesitan. Sin más.
Or maybe it is just because EnglishOnline.TV fits to what more and more people want or need. Just like that.

Piénsalo.
Think about it.

Son muchas horas fuera de casa, con muchos tiempos muertos además. Espacios libres entre reuniones o actividades extraescolares que bien podrían ser útiles para aprender o mejorar o perfeccionar el inglés. Porque si hay conexión, puede haber 30min de EnglishOnline.TV. A medida. Con la profe skype que también te da clases desde el pc de tu cuarto, o en tu portátil del despacho, o en el iPad mientras descansas en el salón. Para aprovechar más el tiempo y sentirte como en casa.

Es evidente, EnglishOnline.TV tiene dos socios naturales muy fuertes, que ocupan buena parte de las horas de nuestro día: los centros educativos y los centros de trabajo. One to one. Business english. Todos los niveles. Para particulares y empresas. Para niños de todas las edades. Es el complemento perfecto. ¿No crees?

We spend too many hours out, with many free periods of time. We may have gaps between meetings or school activities which we could use to learn or to improve our English.

Because if you get to an internet connection you are able to have a 30 minutes class with EnglishOnline.TV, according to your needs, with the Skype teacher who can also teach you English from the PC in your bedroom or from the laptop in your office or in the iPad while you are relaxing in your living room. This is for you to make a better use of your time and also feel like home.

It is obvious that EnglishOnline.TV has two very powerful natural partners that take several hours of our day: school and work. One to one. Business English. All levels. For private students and for companies. For kids at all ages. This is the perfect complement. Don't you think?

¿Cuál es tu casa, el trabajo o el cole?
At home? At work or at school?

Vamos, pregunta lo que quieras. Sure, ask what you want.

Para qué EnglishOnline.TV: para obtener certificados oficiales, para encontrar trabajo o ascender en el que ya tienes, para manejar el inglés cuanto antes si eres niño y no demasiado tarde si no lo eres, para ofrecer una solución perfecta y ajustada para particulares, empresas y centros educativos. Para tener otra lengua que usar, para viajar, para conocer, para leer y ver versión original.

Por qué EnglishOnline: porque es evidente que el inglés puede ser muy importante en tu vida y es muy probable que EnglishOnline sea el modo más TÚ, que más se parece y se ajusta a ti y a tu vida, para aprenderlo o perfeccionarlo.

Dónde: da exactamente igual.

Cuándo: da exactamente igual.

Cómo: sólo tienes que tener acceso a Internet, tener Skype o Google Hangout... y probarte. O incluso, si lo prefieres, sólo teléfono. Porque teléfono sí tienes ¿verdad? Call. Conect. Go.

EnglishOnline.TV...what for?: To get official certificates, to find a job or to get a better position in your current job, to manage English as soon as possible if you are a kid and not too late if you are not, to offer a perfect solution to either private students, companies or schools. To be able to use a foreign language to travel, to learn, to read and to watch the original versions.

EnglishOnline.TV...Why? Because English language may be essential for your life and probably EnglishOnline.TV is the way + YOU; the system that is most similar to you and the one that fits in your life, to learn it or to improve it.

Where?: It doesn't matter.

When?: It doesn't matter.

How?: You just need to have an internet connection, Skype or Google Hangout...and try. Or even by the phone if you prefer. Because you have a phone, don't you? Call. Connect. Go.
